Contacting Leaders

Please call or email the leaders below often — be pro-active. Urge American leaders to continue supporting Israel, including Israel's unlimited need to safeguard Israelis. Ask them not to force Israel to make dangerous territorial concessions nor divide Israel's holy capital of Jerusalem. Insist that they do not reward Palestinian-Arab terrorists, including Mahmoud Abbas, who is not a moderate. Remind them that the Palestinian Authority/PLO/Fatah and Hamas have killed hundreds of Americans. Thank those who are supportive of Israel and the Jewish People. Ask congressional leaders to hold hearings to investigate anti-Israel and/or anti-Jewish activity and to sponsor/co-sponsor, introduce and vote for pro-Israel legislation. Tell Israeli leaders to ignore international pressure and to preserve and protect Jewish heritage, including all of the land, and to do what is necessary to protect Israelis. Fatah/PLO/Palestinian Authority does not want peace any more than Hamas. Israel belongs to all of the Jewish people. Demand the U.N. act responsibly and to eliminate its anti-Israel/anti-Jewish bias.
